PROFESSIONAL SUMMARY

React Native Developer with 2+ years of experience building scalable, production-ready mobile applications for Android and iOS. Proven track record of independently developing and shipping live applications, including a full-scale loyalty platform (Stamba). Experienced in AI-based features, NFC systems, and secure authentication using modern technologies like React Native, Next.js, and Redux Toolkit.

EXPERIENCE

React Native Developer

Dec 2024 – Present

HangingPanda Pvt. Ltd.

Product and client-driven company building scalable mobile applications for global clients

- **Sole frontend developer of Stamba**, a production-level loyalty app live on Play Store & App Store
- Developed the mobile application using React Native, implementing **QR/NFC-based stamp system** for digital loyalty
- Built key user features including **reward redemption, wallet, and engagement tracking**
- Integrated REST APIs for real-time data synchronization and implemented **secure authentication flows**
- Optimized performance and ensured smooth cross-platform experience across Android and iOS
- Contributed to a **women's health application** with AI chatbot, reminders, and community features
- Collaborated with backend team and handled client requirements to ensure smooth feature delivery
- Delivered multiple **client projects via Upwork** in fintech and verification domains
- Integrated **In-App Purchases (IAP)**, **OCR (Google Cloud Vision)**, **face verification (AWS Rekognition)**, and **biometric authentication**

React JS Developer

Oct 2024 – Nov 2024

Eulogik, Bhopal

- Developed **responsive and high-performance web applications** using React.js, Next.js, and Tailwind CSS
- Delivered multiple client projects and integrated REST APIs
- Improved UI performance and ensured responsive design across devices

React Native Developer Intern

Mar 2022 – Jul 2022

Abstinent Research & Technology

- Developed **EMRS and Grocery mobile applications** using React Native
- Implemented navigation, API integration, and reusable UI components
- Optimized rendering and improved overall user experience

TECHNICAL SKILLS

Languages: JavaScript (ES6+), C, C++

Mobile: React Native, Redux Toolkit, Firebase

Web: React.js, Next.js, HTML, CSS, Tailwind CSS

Backend: Node.js, Express.js, MongoDB

Tools: Git, GitHub, REST APIs, API Integration, Push Notifications

PROJECTS

Stamba App (Live - Android & iOS)

Play Store — App Store

- Built the frontend of a **digital loyalty platform** enabling businesses to reward users with stamps and offers
- Implemented **QR/NFC-based stamp collection system** replacing traditional loyalty cards
- Developed user-facing features such as **wallet, rewards, and engagement tracking**
- Integrated APIs and ensured **real-time updates and smooth user experience**
- Focused on performance optimization and scalable UI architecture

EMRS App

- Developed a **healthcare mobile application** for hospital search and medicine ordering
- Implemented **API integration and dynamic UI rendering** for real-time data updates
- Focused on improving usability and seamless navigation experience

Grocery App

- Built a **mobile application for grocery shopping** with product listing and cart functionality
- Integrated REST APIs and optimized app performance for smooth user experience
- Implemented reusable components and efficient state management

KEY HIGHLIGHTS

- 2+ years of experience in mobile and web development
- Hands-on experience with payment integrations (Google Pay, Apple Pay)
- Worked on production-level B2C applications
- Experience in AI-based features, OCR, face verification, and biometric authentication
- Strong focus on scalable architecture and clean code

EDUCATION

B.Tech in Computer Science and Engineering

2020 – 2024

Sagar Institute of Science Technology and Engineering, Bhopal

CGPA: 8.13
